

Ph 3 Readiness Program Leader (m/f) (Senior) Director, Technical Development with focus on Phase 3 Readiness

Date posted: February 3, 2020

Location: Vienna, Austria

About HOOKIPA:

HOOKIPA Pharma Inc. (NASDAQ: HOOK) is a clinical stage biopharmaceutical company developing a new class of immunotherapeutics targeting infectious diseases and cancers based on its proprietary arenavirus platform that is designed to reprogram the body's immune system.

Position Summary:

We are looking for an experienced Project Lead (m/f) with a sound technical background to take charge of our Phase 3 readiness program enabling reliable Ph 3 supply and subsequent global launch of our first arenavirus based product. The chosen candidate will work closely together with the Chief Technology Officer and will lead an experienced, global cross-functional team consisting of internal and external team members. The position requires excellent leadership and communication skills.

Main Responsibilities:

- Drive scoping and execution of Ph 3 readiness program having the global launch of the product in mind
- Effectively manage engineers, researchers, and experts from different disciplines so that the Clinical Ph 3 program can be initiated and executed as planned
- Participate in and contribute to all major Project Team meetings; provide guidance to the project teams
- Identify and manage internal and external stakeholders to ensure support and resource availability for the successful execution of the program
- Be sensitive to team and individual requirements without losing track of compliance, costs and timelines
- Differentiate between mandatory deliverables and nice-to-haves and give clear directions to the team including priorities, timelines and resource deployment
- Recognize and deploy communication as a tool to minimize project inefficiencies and irritations of team members

Qualifications:

- PhD degree in Life Science, Biotechnology or comparable fields
- Knowledge of key principles in biopharmaceutical product development (process, assays, quality and regulatory compliance)
- A minimum of 7 years of experience in a pharmaceutical/biotechnology environment or in a top tier consultancy firm
- Strong track record of successfully managing complex projects and large, diverse teams
- Strong social skills
- Hands-on, solution oriented personality
- English as a native language or other nationality with top quartile English capabilities
- International experience

**What we offer:**

- Strong team with dedicated and passionate scientists
- State of the art infrastructure
- An excellent working atmosphere
- Opportunities for personal development
- Working in a multinational and multicultural environment

We are required by Austrian law to post a minimum salary. The minimum monthly gross salary for this position is EUR 5.265,- based on fulltime (40 hours per week); depending on experience and qualification salary can be negotiated. In addition, we offer a performance-related bonus payment and participation in our stock option compensation program.

Starting date: As soon as possible
